Sprint 3 - Team 11

Interviews

Three 15-minute interviews, held together on Oct 13, 2026, with travelers from outside our course. Interviewees are coded P1 (Peru trip), P2 (Seattle trip) and P3 (Albuquerque road trip).

Our 15-minute guide

Step	Minutes	What we asked about
1. Screen	1	Do they use a competing solution now, or did they recently?
2. Last-time story	4	Walk through the most recent time they did the job.
3. Alternatives	3	What else they tried, and why it lost.
4. Switching story	4	What pushed them to start, what almost stopped them, and what would make them leave.
5. Money and time	2	What their current approach costs them.
6. Close	1	Who else should we talk to?

What we heard

Interviewee	Summary
P1: Peru trip	Booked flights early. Used TikTok, Booking.com, Priceline and ChatGPT. Pays about $20/month for AI.
P2: Seattle trip	Found places on TikTok and checked Google Maps reviews. Used ChatGPT. Spent nothing on planning.
P3: Albuquerque road trip	Planned around an event found on Instagram. Booked a hotel on Expedia. Says she needs a planner for her next trip.

Common thread: everyone used several apps for one trip, and nobody mentioned budgeting.

Team notes, as written

Four teammates took notes live in the same three interviews. Notes are shown as each person wrote them, so wording and spelling differ. One correction: P3's $25/month is an internet bill (Luis's notes). Marc's and Omar's notes recorded it as an AI cost, and the team confirmed it is the internet bill. P1's $20/month is for AI.

Luis's notes — shorthand, three interviews

1) AI
2) Peru, Book flights, the hotel, attractions, tiktok for where to go. Hilton credit card so usually uses Hilton. No connections on flights is preferrable. And price
3) Booking.com/Priceline
a. Issues with 3rd parties(not being cable to ancel
b. Direct is better.
4) Saves time.
5) $20/month. Claude, ChatGPT, Gemini.
6) N/A

1) Tiktok, maps(reviews), chatgpt
2) 2 years, seattle, easy city to navigate
3) Asking people, Instagram
4) Instagram, is difficult to search.
5) Tiktok, more known, easy to search, maps (easy to share)
6) No

1) Yes, NM Albuquerque 2 days, Road trip
a. Activity planned, through Instagram
2) June 2026. Found event 2 weeks prior. Hotel reserved, asked friends.
a. Asked dad for points
b. Booked hotel through Expedia
3) Airbnb. Did not llike because 2 day stay felt too short for an Airbnb.
4) Instagram used most. Reliable for events. Frequent posts for events
5) $25/month internet bill
6) Need planning for tempe trip

Marc's notes

by interview

Interview 1:
Planned his trip to Peru. Booked flights immediately, researched attractions nearby by using TikTok.
Used Hilton with credit card. Looked at flights depending of price and had no connections.
He used Booking.com an Priceline
If there were errors, flight and hotels were not able to do much.
ChatGPT saved a lot of time by using it
Nothing would stop him from using AI
Spent $20 a month for ChatGPT subscription

Interview 2:
Used TikTok for location to travel and Maps for reviews.
Used ChatGPT
Last Trip was Seattle, which was easy for her to plan since there were many things to do.
Learned about the city by talking to people and Instagram for you page
TikTok is known and easy to search around to research.
Did not spend money to plan

Interview 3:
Went on road trip to Albuquerque
Had a specific event, planned around it. Found the event through Instagram.
Asked friends to see who wanted to take this trip and planned immediately once she found out about the event
Used Expedia to book the Hotel
Alternatives: Uses AirBNB but didn't seem worth is since it was a 2 day trip and ended up being just her. Hotel was the better and affordable option
Instagram was the main source she uses and where the people that ran the event were posting the most.
Cost: $25/month for AI
Next month going on trip, needs a planner

Joy's notes

paragraph notes

Interviews: Planned trip to Peru, booked flights immediately and researched attractions w/ tiktok. Used Hilton due to credit card. Looked for lights depending on price and no connections. Used booking.com. Chatgpt helped a lot, and would not give up chat so easily
Used tiktok for locations and Google Maps for review and used chatgpt.
Went to seattle and learned about what to do by talking to people and instagram fyp.
Roadtrip to abq, was planned as soon as they found out about event via instagram. Used expedia to book hotel. Planned as soon as they got details regarding this event.

Omar's notes	typed up and tagged Behavior or Opinion

Interview 1 – Peru Trip
Behavior: The traveler planned a trip to Peru.
Behavior: The traveler booked the flights early in the planning process.
Behavior: The traveler researched nearby attractions using TikTok.
Behavior: The traveler used Hilton and paid with a credit card.
Behavior: The traveler compared flights based on price and preferred flights with no connections.
Behavior: The traveler used Booking.com and Priceline during the planning process.
Behavior: The traveler experienced situations where airlines or hotels were not able to provide much help when errors occurred.
Behavior: The traveler used ChatGPT during the planning process.
Opinion: The traveler felt that ChatGPT saved a lot of time.
Opinion: The traveler said that nothing would stop him from using AI for travel planning.
Behavior: The traveler paid approximately $20 per month for ChatGPT.

Interview 2 – Seattle Trip
Behavior: The traveler used TikTok to look for travel locations.
Behavior: The traveler used Google Maps to look at reviews.
Behavior: The traveler used ChatGPT during the planning process.
Behavior: The traveler's most recent trip was to Seattle.
Opinion: The traveler felt that Seattle was easy to plan because there were many things to do.
Behavior: The traveler learned about the city by talking to other people.
Behavior: The traveler also found information about the city through Instagram.
Opinion: The traveler felt that TikTok was familiar and easy to use for travel research.
Behavior: The traveler did not spend money specifically on a trip-planning service.

Interview 3 – Albuquerque Road Trip
Behavior: The traveler went on a road trip to Albuquerque.
Behavior: The trip was planned around a specific event.
Behavior: The traveler originally found the event through Instagram.
Behavior: The traveler asked friends who wanted to go on the trip.
Behavior: The traveler started planning immediately after learning about the event.
Behavior: The traveler used Expedia to book the hotel.
Behavior: The traveler considered Airbnb as an alternative.
Opinion: The traveler felt that Airbnb was not worth using for a two-day trip, especially because she ended up traveling alone.
Opinion: The traveler believed that a hotel was the better and more affordable option.
Behavior: Instagram was the main source used to follow information about the event.
Opinion: Instagram was useful because the people running the event posted most of their information there.
Behavior: The traveler paid approximately $25 per month for an AI service.
Behavior: The traveler has another trip planned for next month.
Opinion: The traveler feels that she needs a planner to help organize the next trip.
